Dear Mr. Whittington:

^{Dump}
Re: Marshall Road Disposal Site

TXD 980 745 616

As you are aware, the Marshall Road Disposal Site was submitted by the Department as a "Superfund" candidate site in December, 1981. A HRS ranking package was submitted in September, 1982, which scored the site high enough, as we have been advised, to appear on the "400 list" to be published by EPA later this month. Also, we have requested and received approval to proceed with a "planned removal" at this site.

This letter is to advise you that we have negotiated an agreement with Velsicol Chemical Company and Witco Chemical Company, whereby these companies will contract with Chemical Waste Management, Inc. for the complete removal of all chemical waste and contaminated soils at this site. A copy of the "Excavation and Disposal Site Protocol" submitted by the companies is attached.

Because our agreement with Velsicol and Witco will effectuate complete removal of all waste at the site, any and all hazards associated with the site that allowed the site to be scored high on the HRS will also be removed. Therefore, we request that this site, Marshall Road Disposal Site, be removed from consideration as a "Superfund" candidate site.

SUPERFUND
FILE

NOV 25 1992

REORGANIZED

Mr. Dick Whittington, P.E.

Page 2

We will be closely monitoring the program of CWM, Inc. in this cleanup. A copy of any and all reports prepared with respect to the cleanup will be forwarded to you for your information.

If you have any questions concerning this request, please contact Mr. Gary D. Schroeder, Chief, Solid Waste and Spill Response Section, in Austin at area code 512/475-6371.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Seth Burnett".
